

Bee Pollen Supplement

Ingredients:

- 3kg Sugar
- 750g Torula Yeast
- 750g Soya Flour
- ¼ cup of Horse Vitamin and Trace Element Mix – I use Kelato VIT
- 4 Tablespoons of Wheatgerm

Combine all of the above with enough cold water to make a mixture capable of being formed into patties.

Using slightly damp hands, mould the mixture into patties and roll in Soya Flour.

If not using immediately, it is recommended that patties be layered in Soya Flour and kept in a cool place.

This quantity will make approximately 50 patties slightly larger than a golf ball.
